Crowdsourced Security and Penetration Testing

SECTION A

Introduction

GSA has an immediate need to perform penetration testing and web application assessment against login.gov, a Software as a Service (SaaS) federated single sign-on solution that provides and supports simple and secure access to public-facing consumer services and information with mandatory use of two-factor authentication, while protecting consumer privacy. The solution is targeted to the public to allow citizens to more easily interact with their government using a single sign on account. The service is expected to support millions if not tens of millions of americans and to do so will store their Personally Identifiable Information (PII). The system is expected to be widely targeted by attackers.

Background

GSA TTS is designing and developing a Shared Authentication Platform to answer and meet recent federal directives and action plans released by the Executive Office of the President to provide citizens with secure singular digital accounts that can be used government-wide to access participating federal agencies. Congress saw the need for citizens to securely access federal agencies and passed the Cybersecurity Act (CISA) in October 2015 to strengthen the Nation's Cybersecurity. The Executive Office of the President defined actions federal agencies can follow to meet CISA in the Cybersecurity National Action Plan in February 2016.

Armed with knowledge gained from an initial operational capability utilizing third-party credentials and with valuable Government, industry, and customer input, GSA TTS will operationalize a shared authentication platform titled Login.gov that provides citizens with government-provided digital identities established at National Institute of Standards and Technology (NIST) Level of Assurance LOA1 and LOA3 in 800-63-2 with remote proofing, in a simple, elegant manner from a technical environment that is built on experiences, processes, and infrastructure that will use the latest available technology to safeguard all user data.

Objectives

The Government intends to award one contract to the offeror who can supply GSA TTS with “Crowdsourced Security and Penetration Testing Services”.

Scope

GSA requires Crowdsourced Security and Penetration Testing service that mimics attacks and detects the security flaws that real-world hackers use to breach the Login.gov platform.

This requirement is one in a series of security assessment requirements for login.gov, commonly known as penetration testing. In this instance, the service is seeking a vendor with crowdsourced vulnerability discovery capabilities using penetration testing methods and disclosure programs for large enterprises. The selected vendor will attempt to compromise the service in real-time, with pre-determined monitoring and safeguards in place. This is planned to begin after login.gov has added up to 500 users to the service who require NIST Level of Assurance 3 (LOA3) security. These users are unique as they will be the first users to input personally identifiable information (PII) into login.gov. This exercise is designed to test the service at a higher level of assurance, NIST LOA3, than other login.gov users.

This red team exercise is an important security step necessary to achieve authority to operate (ATO) login.gov at this higher level of assurance.

Further, GSA requires the winning vendor to perform background checks to verify the integrity of the individuals performing the test in order to increase confidence that all identified findings will be disclosed. Furthermore, all disclosures should include comprehensive vulnerability triage, validation, and manual reproduction of identified vulnerabilities.

Scope of Work

GSA requires the following products and services:

Crowdsourced Security & Penetration Testing focusing on the login.gov platform running in Amazon Web Services using a pre-vetted and private pool of researches. Assessment will focus on both LOA1 and LOA3 integrations.

- Currently login.gov’s code repository contains 50,000 lines of code
- At the time of testing login.gov will have 500K or more active LOA1 users and 500 active LOA3 users.

Test accounts will be available for each researcher. The assessment shall have the following required objectives:

Core Objectives

1. Target/attack Relying Party integrations and associated users, and user data; testing both SAML certs and OIDC tokens.
2. Target/attack Login.gov web servers, rooting, and vulnerability to data exfiltration.
3. Target/attack third party vulnerabilities in third party integrations. Penetration testing of 3rd party platforms is out-of-scope however the “integration” of Login.gov with a 3rd party platform via APIs is in scope.
4. Target/attack of Login.gov via public code repo available at Github.com and/or DevOps chain.
5. Traditional web application penetration test such as OWASP etc.
6. If web servers are compromised/rooted, Target/attack of encryption implementation and possible cracking of encryption implementation - in transit and at rest.

Schedule and Milestones

The following are the schedule / milestones for this procurement. The full period of performance is 90 days from the date of award. The final engagement timeframe will be mutually agreed to after consultation between the Government and the Contractor.

- 2-4 Weeks: Scoping of penetration testing
- 1-2 Weeks: Contractor shall provide Rules of Engagement (ROE) with validation of scope, schedule, access to the platform for all vendor requested accounts before the start of penetration testing. A signed ROE and researcher accounts for LOA1 and LOA3 testing is required before the start of assessment.
- 2-3 Weeks: Vendor performs penetration testing/assessment. Assessment findings shall be provided as identified and confirmed.
- 1-2 Weeks: Vendor Reporting, follow-on testing to verify remediation and close out with final reporting.

Place of Performance

For remote penetration testing service, regular access to government facilities is not required.

Acceptance Criteria

Acceptance will be contingent on the vendor completing and delivering the following:

- Signed Rules of Engagement (ROE) with validation of scope and schedule
- Assessment results that show findings are identified and confirmed.
- Test Results that verify remediation.
- Final Penetration test report that shows:
 - Successful completion of In-scope testing objectives specified above

- o Details of the Penetration Tests Performed and their result.
- o Recommended Solutions & Best Practices for identified issues and security risks.

Contract Type

GSA will award a Firm Fixed Price (FFP) type contract to a single vendor for providing services as defined in the scope of work.

SECTION B

Solution Requirements

1. Solution must utilize a secure web gateway with API access for all reportable crowd findings and must be hosted by the contractor.
2. Secure web gateway must implement Two-Factor Authentication (2FA).
3. Crowd members must be required to use a Virtual Private Network (VPN) to access the secure web gateway for all assessment activities.
4. The VPN gateway must perform Full Packet Capture of all crowd activities during the assessment so that there is an audit trail of researcher activity.
5. All crowd members must be vetted by the contractor, prior to the crowd members being invited to the assessment. Crowd members must be vetted to determine researcher skill level.
6. Crowd members must have relevant experience and skills corresponding to the areas identified in the core objectives.
7. Contractor must be capable of ensuring that all researchers are not felons; are not known terrorists, or an associate of a known terrorist or terrorist organization; are not listed on the U.S. Department of Treasury's Specially Designated Nationals List; or otherwise ineligible to conduct work for the government and have passed criminal background checks performed by the contractor.
8. All crowd members shall sign or have signed a Non-Disclosure Agreement (NDA) with the contractor and agree that all findings from assessment activities for assets within scope under the agreed upon contract are solely owned by the US Government.
9. Contractor is responsible for all researcher management.
10. Solution must have predetermined IP addresses for all assessment traffic to ensure differentiation between assessment traffic and possible malicious traffic.
11. Contractor must perform each of the following functions without the use of a third party; Bug Triage, Validation and De-duplication of crowd submissions to ensure only high-fidelity reports are provided.
12. Contractor must have at least one (1) years proven experience providing crowdsourced vulnerability discovery and disclosure programs for large enterprises.
13. Contractor must be capable of adhering to following standards:

- ISO 29147: Vulnerability disclosure standard and handling processes including how to receive vulnerability reports from researchers and disseminate resolution info.
 - ISO 30111: Guidelines for how to process and resolve potential vulnerability information in a product or online service, applicable to vendors involved in handling vulnerabilities.
14. Solution must utilize Common Vulnerability Scoring System (CVSS) for all vulnerability submissions
 15. Contractor solution must support customizable reporting by methods such as email, dashboard in formats including but not limited to PDF.

SECTION C

Technical Evaluation

The following will be used to evaluate technical quotes:

1. Demonstrated capability to meet the Core Objectives identified in Section A of the Crowdsourced Security and Penetration Testing SOW
2. Demonstrated capability to meet the Solution Requirements identified in Section B of the Crowdsourced Security and Penetration Testing SOW.
3. Level of knowledge, technical expertise, and overall understanding of the requirements to manage a Crowdsourced Pen Test program for large and high-profile corporations
4. Demonstrated ability to maintain a community of security researchers with adequate levels of skill and talent specially with identity authentication using SAML/OIDC tokens and proofing using 3rd party data sources, among other factors outlined in the solicitation.
5. The offeror's skills with open source software development, human-centered design, and continuous deployment methods.
6. Vendor Experience/Skill: Vendor's proposal includes At least 2 but no more than 3 representative projects involving crowdsourced penetration testing (not small team penetration testing) of applications with cloud-centric architectures. All the projects together must align with at least four (4) of six (6) Core Objectives identified in the SOW and with a sampling of researchers put forward.

Price Evaluation Factors

Each offeror's price quotation will be evaluated separately from the technical quotation and oral interview. Pricing shall reflect reasonableness, consistency with industry standards. Note that as submissions become more technically equal in their merit, the

evaluated price becomes more important. Therefore, it is critical that the Offeror submit their best quotation initially.

Evaluation process

The final award for this requirement will be based on best-value principles, utilizing the trade-off process. Accordingly, award will be made to the responsible and technically acceptable offeror whose quotation provides the greatest overall value to the Government, price and other factors considered.

The Government is more concerned with obtaining superior technical and management capabilities than with making awards at the lowest overall price to the Government. However, the Government will not make awards at a significantly higher overall price to achieve slightly superior technical value. Offerors are advised that the technical evaluation factors combined are significantly more important than price.

Instructions to Offerors

Please see full Instructions to Offerors in the Provisions section below.

Please submit any questions as an Issue in this repository (<https://github.com/18F/tts-buy-crowdsourced-pentest/>) by **November 17, 2017**. PROVISIONS

52.212-1: Instructions to Offerors – Commercial Items (JAN 2017)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet ([SF 1449](#)). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) “Remit to” address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR [52.212-3](#) (see FAR [52.212-3](#)(b) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender’s request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with subpart 4.10 of the Federal Acquisition Regulation), or alternative commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror’s initial offer should contain the offeror’s best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards.* The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(1)(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to—

The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “Unique Entity Identifier” followed by the unique entity identifier that identifies the Offeror’s name and address. The Offeror also shall enter its Electronic Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see [subpart 32.11](#)) for

the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) System for Award Management. Unless exempted by an addendum to this solicitation, by submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance and through final payment of any contract resulting from this solicitation. If the Offeror does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror. Offerors may obtain information on registration and annual confirmation requirements via the SAM database accessed through <https://www.acquisition.gov>.

(l) *Debriefing*. If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.

(6) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

52.212-2: Evaluation – Commercial Items (JAN 2017)

EVALUATION—COMMERCIAL ITEMS (OCT 2014)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

See Section C Above

Technical and past performance, when combined, are more important than price.

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
